YAFET PURNAMA
IT Developer

Surabaya, Indonesia | 082124952938 | joshuapurnama123@gmail.com | LinkedIn: Yafet Purnama

SUMMARY

The individual in question possesses over 1 year of experience as an IT Developer and Data Analyst. They are well-versed in hardware maintenance, big data handling, bug troubleshooting, network management, and UI/UX design for software applications as well as websites. Moreover, they have demonstrated proficiency in creating concept frameworks for web-based programs and websites. Throughout their tenure, they have successfully delivered several websites and programs, catering to both organizational needs and freelance projects.

Beyond their expertise in IT Development, they have also garnered valuable experience in managing large-scale events, notably serving as a team member and project coordinator for various event organizers, especially in the realm of wedding planning. Their keen interest and adeptness in event coordination have been honed since their academic days and remain evident in their current endeavors.

In conclusion, this individual boasts diverse experiences in IT Development and event coordination, making them a valuable asset in both domains. Their skill set and versatility contribute significantly to their professionalism and competence in their chosen fields.
